The concept is unique in Belgium. The walls of this 200-year-old cave have been lined with 15 tons of salt from the Himalaya and the Dead Sea. The temperature, kept between 20 and 23°C, and the humidity, always between 40 and 60% recreate a seaside microclimate.

Wellbeing in a cave

Visitors can enjoy the wellbeing sides of the salionarium: a more intimate space with dimmed lighting, relaxing music and the sweet sound of the saline fountain (rich in minerals and micro-nutrients). Time to indulge!
