Visit the orchard named "verger de Parentville" as well as its didactic apiary with a beekeeper and a guide from the Charleroi Nature association.

Visitors will learn how a hive works, what can be made from it as well as the beautiful (apple, pear, cherry) trees of the orchards, their age making their long branches and cavities the perfect homes for birds and insects.

The first bees settled in the hive, selected for their gentleness, help with the pollinisation of the nearby fruit trees. The perfect team work!

The information contained herein is provided as a guide only.

We recommend that you check with the local supplier before you leave.
